1. [redacted] Hqs. 2E 61	7 Nov 75	20 Nov 75	TSM	I have seen no evidence that attendance at ICAF affected my car one way or the other. I believe I attended ICAF at the proper time in my career. I have no specific suggestion pertaining to "core" courses etc. My general observation is that the guest speaker program was the m valuable part of the curriculum Speakers from business, labo academics and politics were particularly enlightening -- they helped the students back to th real world. Perhaps some of the German pedantry of mandatory term pap and theses could be eliminated The students at ICAF level alre know how to put a paper toget or it is too late for them to learn. Little purpose is served r required papers. Some individ may feel moved to write pape and they should be encouraged Student participation might enhanced by arranging debat on current issues. Good humored students have enough competit drive. Structured debates migh stimulate research + thought to prevail over one's peers. Some of the athletic energy expended to to clobber the National War Coll might then be transformed with intellectual dividends.
